

PP MONO THERMOFORMING SHEETS – 100% RECYCLABLE

For thermoforming and FFS (Form-Fill-Seal) applications ETIMEX has been offering a wide range of thermoforming films for more than 30 years. Sustainable, innovative and 100% recyclable. In addition ETIMEX PP barrier thermoforming films offer a maximization of shelf life. Especially on the topic of food waste an absolute added value. The VISTAFORM® brand stands out through a special extrusion process.

At this a highly transparent Mono PP is extruded as an excellent alternative to APET. And of course: fully recyclable.

APPLICATIONS ETIMEX THERMOFORMING SHEETS:

- > sterilized groceries
- > fresh and cooled ready meals
- > frozen applications
- > babyfood
- > coffee capsules
- > desserts
- > gourmet food
- > snacks
